

SEEKER S

MULTI-PURPOSE LASER RANGEFINDER

Now Android™ compatible

The SEEKER S is a specially designed multi-purpose mountable laser rangefinder which can be a vital tool for various operations. This device can be mounted and aligned with any optical system including weapon sights and can be integrated with various purpose built platforms. The device incorporates the newest laser rangefinding technologies to help the operator not only seek the target, but also, based on compass and inclinometer indications, receive precise GPS coordinates of the target's location.

The SEEKER S also features a visible laser system which helps with referencing and adjustments. High strength materials as well as ergonomic control placement make this rugged device efficient and user friendly.

Rangefinder		SEEKER S
Laser safety		Class 1, eye-safe
Wavelength (nm)		905
Measuring range, (m)*		10 - 2,000
Distance measuring accuracy (m)		±1
Azimuth measuring range (°)		360
Azimuth measuring accuracy (°)		±1
Inclination measuring range (°)		±60
Inclination measuring accuracy (°)		±0.5
First/Last target logic		Yes
Gating capability		Yes
Interface		USB
Visible Laser		SEEKER S
Class		3R
Wavelength (nm)		635±10
Optical Output Power (mW)		<5
Display		SEEKER S
Integrated display		OLED
Display color		Red

*2.3m x 2.3m NATO standard target

SEEKER S

MULTI-PURPOSE LASER RANGEFINDER

Mechanics, Electronics & Environmental

Dimensions without mount (mm)	115x76.3x52
Dimensions with mount (mm)	115x76.3x74
Weight without batteries or mount (g)	325
Weight with mount (g)	443
Weapon mountable	MIL-STD-1913
Power Supply	2x CR2
Battery life (# of measurements)	3,500
Operating temperature range (°C)	-30 to +50
Storage temperature range (°C)	-35 to +60
Waterproofing	MIL-STD-810G

Mounted on Assault Rifle with visible LCD Display

Delivery Set

Seeker S mounted on a sniper rifle with a connection to Android™ Compatible Tablet
